positions

5-point  
seat belts

# *More than a high chair*

You probably feel that it is time for your toddler to be introduced to foods other than milk if you are considering buying a Neno Sedi. Choosing our high chair is more than just a comfortable seat at the table. Using the Neno Sedi allows your child to sit and eat together with the family. Sharing a meal brings your child closer to the rest of the household and is a good way to develop social skills from an early age.

# 5 point seat belts

Lively and cheerful toddler on board? We have the answer! The Neno Sedi multifunctional feeding chair is equipped with a system of straps to secure the torso and arms. This solution greatly improves safety by preventing your child from falling. The soft pads on the belt also help to alleviate any discomfort caused by compression.

# 3 position recline seat

nenor PREMIUM

Whether you use Sedi for feeding or playing, you can quickly adjust the backrest to suit the child's activity and age. You can choose from three positions: sitting, semi-lying and lying.

# 3 tray positions

The tray is made of high quality material and can be pulled out in three different positions. All this to make sure that the high chair will 'grow' with your little one!

# Double tray

With the Neno Sedi, you won't be worried about hectolitres of spilled soup and crushed noodles. When it comes to feeding your baby, you will soon appreciate the convenience of the tray. The double top is easy to clean, or you can remove the top layer to uncover a clean surface underneath.

# *Comfort for baby's feet*

We were aware of the importance of having an adjustable footrest that you can adjust to your child's height and position when designing the Neno Sedi.

## **Adjustable footrest:**

- increases the baby's comfort, which is essential during feeding
- provides support for the feet, helping to position other parts of the body correctly
- reduces pressure on the spine
- ensures seat does not pinch thighs

# 2 heights of the 3-position footrest

Is your little one growing fast? Adjust the chair to his/her height by selecting one of the footrest height positions. Ensure the comfort of your child's feet by also taking advantage of the adjustable angle of the footrest.

# 4 castors with motion lock

nenò PREMIUM

The mobile multifunctional high chair will undoubtedly be useful in everyday childcare. The castors on the underside make it easy to move it from room to room. If you want to sit your child at the table or just keep an eye on him or her while you do your daily chores, use the locking mechanism.

# Easy folding

When folded, the Neno Sedi forms a compact, free-standing structure. This solution does not take up a lot of space, making storage much easier.

Lean it against the furniture

free-standing

# 7 height positions

nenó PREMIUM

The feeding chair's clever design allows you to adjust the height in up to 7 variations, so you don't have to worry about your table being too low or too high.

*Ecological  
leather  
seat cover*

The undeniable advantage of the Neno Sedi multifunctional chair is its appearance. The organic leather cover, which can be cleaned with a damp cloth, adds a touch of subtle elegance.

# Big basket

Every toddler has a favourite bowl, cup, cutlery or toy, so Neno Sedi has a big basket for all the little treasures.

# One chair – up to 378 possibilities

You can adapt the Sedi high chair to suit you and your child's needs. You can make all the changes yourself, which gives you a lot of options. Choose the configuration that works best for you and enjoy your time together!
